181 Gujarat Launch

Road Safety Week

Delhi MCTFC

pensell.com

From The Chairman

I would like to extend my warmest gratitude to all the employees of GVK EMRI across India for being united and working towards a noble cause. If your past efforts are anything to go by, millions of people will benefit from this. I am glad that past quarter has witnessed couple of historic developments in the world of GVK EMRI.

To mention a few, 181 Abhayam, women's helpline launch in Gujarat and MCTFC launch in Delhi would surely be one of the major milestones in this mission of creating better tomorrow. Moreover, with increased focus on research and analytics, GVK EMRI plans to further enhance the overall emergency management system in a significant manner.

Drawn on the knowledge base of specialized institutions overseas and set the standards in India, GVK EMRI has developed unique research capabilities. With combined cutting edge technologies (telecom, computing, medical and transportation) to create new capabilities, it has increased the quality of life by caring, valuing and respecting life.

We move forward with passion, but also with purpose. GVK has always endeavoured to contribute to nation's growth by building world class infrastructure projects and is equally sensitive about social upliftment of less privileged. This joy of giving back to society gives satisfaction and attachment. Let us together write another glorious chapter in the history of emergency services of India.

Dr. G. V. K. Reddy
Chairman - GVK EMRI

From The Director

During this period, we have grown and flourished through novel ways of medical technology and there exists a pioneering spirit among us to work. GVK EMRI adds value to emergency medical care through enhancement of knowledge and skills of health care professionals. With the aid of its proven technology & infrastructure, we aim at delivering services of global standards through leadership, innovation, research and training.

We hope that, our ideas & ideals would ignite the passion for building system for safe and secure India. With humanness, humility and commitment to serve people, we move ahead in pursuit of excellence.

K. Krishnam Raju
Director - GVK EMRI

GVK EMRI Strides Ahead

On behalf of GVK EMRI, I am delighted to congratulate you for all the success and progress of the past quarter. 181 Women Helpline launch in Gujarat is a major achievement which would strive to help women in distress and block increasing crime rate. This service is dedicated to women needing help through counselling and reaching out.

I am further delighted to share that, Mother and Child Tracking Facilitation Centre at Delhi was launched by Honourable Union Health Minister Shri Ghulam Nabi Azad on 31st January, 2014. It creates a robust database to ensure every pregnant woman gets quality ante and post natal care and every child receives a full range of immunisation services.

Besides this, numerous programs have been organized across various states to create awareness among the individuals in regard to the services offered by GVK EMRI. I am very much thankful to the Government of India and all the state Governments for their continued and unstinted support.

I wish you every success for endeavors yet to come.

181 Launch

GUJARAT

To curb violence against women GVK EMRI in association with Gujarat government has launched 181 - the Abhayam Women Helpline for all women in Gujarat. To ensure their safety and the general panic among women, these efforts are aimed at curtailing the acts of unscrupulous elements.

The helpline, launched in collaboration with the home and women and child welfare departments, will be synchronized with the existing "1091 - Gujarat Police Helpline" and other women-oriented services.

The free 24x7 helpline, 181 is a toll-free number to support women in distress and is accessible through any mobile or landline. Any women can access 181 "Abhayam" helpline for the purpose of counseling, guidance, information and also for the rescue in various threatening situations including domestic violence.

"181-Abhayam will add value to the life of common people of Gujarat. This is an excellent step towards assurance of women empowerment in the state" said Smt. Anandiben Patel, Hon'ble Minister of Revenue & Urban Development while inaugurating the service in Gandhinagar.

Initially this service will be available in Ahmedabad city, Surat City and Gandhinagar District.

Objectives of 181

- To provide 24X7 free counseling, guidance and information through centralized response centre
- To rescue in emergent situations like domestic or any type of violence and to shift women to the safe places
- To provide important information regarding local government services, women police stations, free legal services, counseling centre, NGOs and rescue officer

102 Launch

SAHARANPUR
13th Feb, 2014

To ensure wholesome support for the mother and child, GVK EMRI has launched one of the largest programs, 102 service in the State of Uttar Pradesh. It was inaugurated by the honourable Health Minister Shri Ahmad Hasan. Besides Uttar Pradesh, GVK EMRI operates 102 ambulance/vehicles in the states of Andhra Pradesh (Reverse Transport/Drop Back Services), Assam (Adarani Services), Uttarakhand (Khushion Ki Sawari), Gujarat (Khilkhilat), Chhattisgarh (Mahtari Express). These services are offered to the mother and child if they continued to stay in the Government Hospitals for 48 Hours after Child Birth. Till date 7,04,640 beneficiaries have availed these services since inception across all states.

Road Safety Week

Chhattisgarh

In order to make people aware about the road safety, GVK EMRI had organized 25th National Road Safety Week campaign in various parts of Indian sub-continent. The aim of this campaign was to emphasize and accentuate people about the need of safe road travel by applying simple rules. People are encouraged about how to drive on road by organizing variety of programmes related to the road safety.

In Chhattisgarh, Road Safety Week was organized from 1st to 7th January at various zones such as Bastar, Raipur and Bilaspur. During the week, dignitaries from Police department and others gave their note to create awareness. Variety of educational banners, safety posters and leaflets related to the road safety were distributed to the on-road travellers.

Himachal Pradesh

GVK EMRI's Himachal Pradesh team also joined the league as the event was at full swing at Chhattisgarh during 1st to 7th January. It was celebrated across the State in the regions of Solan, Kangra and Una. Activities like free health check-up, flute board pasting, flyer distribution, signature campaign on pledge banner were conducted.

Dadra and Nagar Haveli

In participation of 25th Road safety week, GVK EMRI had organized a rally in Silvassa on 17th January, 2014. Local police joined 108 & 104 teams and participated in the rally to create awareness among the individuals. Flyers and other educational material were distributed among the people.

MOTHER AND CHILD TRACKING FACILITATION CENTER

MCTFC Launch

DELHI

GVK EMRI has launched Mother and Child Tracking Facilitation Center (MCTFC) project in partnership with Ministry of Health and Family Welfare (MOHFW) at Delhi. The aim of MCTFC is to ensure that every pregnant woman gets complete and quality ante and post natal care and every child receives a full range of immunisation services. It was inaugurated by Honourable Union Health Minister Shri Ghulam Nabi Azad on 31st January, 2014.

MCTFC is expected to reach out to a much larger number of pregnant women and feeding mothers through the advance infrastructure. The tracking system would help gather valuable data from states on the health schemes and facilities reaching the beneficiaries. This will help to better the facilities and also evaluate them.

Currently MCTFC is being operated with 80 Seater Call center which will validate all data across the nation. The project has a plan to scale up to 300 seats with multilingual capacity. Till date 3,40,755 calls were answered with 00:03:47 average Handling Time.

Medaram Jatara

ANDHRA PRADESH

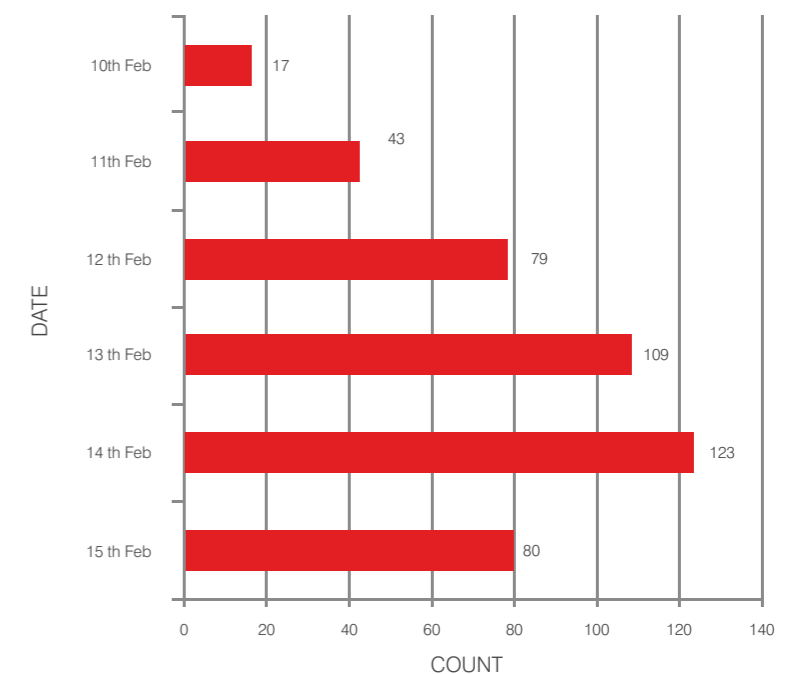

Medaram jatara is the largest tribal religious congregation in the world, held every two years, with approximately ten million people converging on the place which is 90 km from Warangal city. Many devotees from different states of India reach to the festive place. For such a huge mass gathering, GVK EMRI was all set to provide medical assistance on the site from 10th to 15th February.

Medical teams were prepared for the worst - with stocks of specialist equipment to treat patients round-the-clock, and react in the event of major emergencies.

Total 451 cases were reported during the week. Majority of them were Acute abdomen cases and the patients were shifted to the nearest hospitals. About 85% of the patients got admitted at Medical camp.

Banners and posters were placed at relevant and easily visible places for the people to be aware of 108 Medical camps.

DATE WISE CASES

Good Samaritan Day

TAMILNADU
13th March, 2014

During an Emergency, it is the community that comes first to the rescue of the distressed.

The community includes the local villagers, by-standers, Policemen etc.

These First Responders play an active role in the life saving mission

- Be it calling for Emergency medical Help
- Providing the first-aid to the victim before the ambulance arrives
- Securing the valuable of the affected
- Informing the relatives of the affected
- Crowd management etc.

By their noble act, they qualify to be the 'Good Samaritans'

On March 13th every year, GVK EMRI observes as 'Good Samaritan Day' to encourage and honour those who have

called the 108 Emergency Response Centre and contributed in the life saving mission. We invite the Good Samaritans (Callers) and those who have benefitted from the calls made by the Good Samaritans.

When it comes to Road Traffic Accidents and other trauma related emergencies, the caller may have no relationship with the victim and his or her help comes without any expectation, truly selfless.

Such Good Samaritans needs encouragement and appreciation, which will ignite spirit in many more Good Samaritans.

In the year 2011, we had two Justice from the Madras Court as the Chief Guest for His Lordship Justice Thiru. Rajendran and His Lordship Justice Thiru. Rajashekar addressed the gathering of Good Samaritans and the Media, assuring that the law

supports and protects the Good Samaritans and the Medical fraternity who extend help to those in distress. Good Samaritans can therefore help without any fear of legal harassment and consequences.

In the year 2012, we had an educationist / economist as the Chief Guest for the Good Samaritan Day. Dr. Selvaraj, Professor of Economics and the Principal of St. Thomas College of Arts and Science, Koyambedu, Chennai presided over the function and addressed the Gathering of Good Samaritans and their Beneficiaries in the presence of large gathering of Media. For the first time, we brought the Good Samaritans and their beneficiaries together. This was a great platform for both of them to express their gratitude and thereby inspiring others. The Chief Guest stressed on the role of the first responders and the need for more people from community to reach

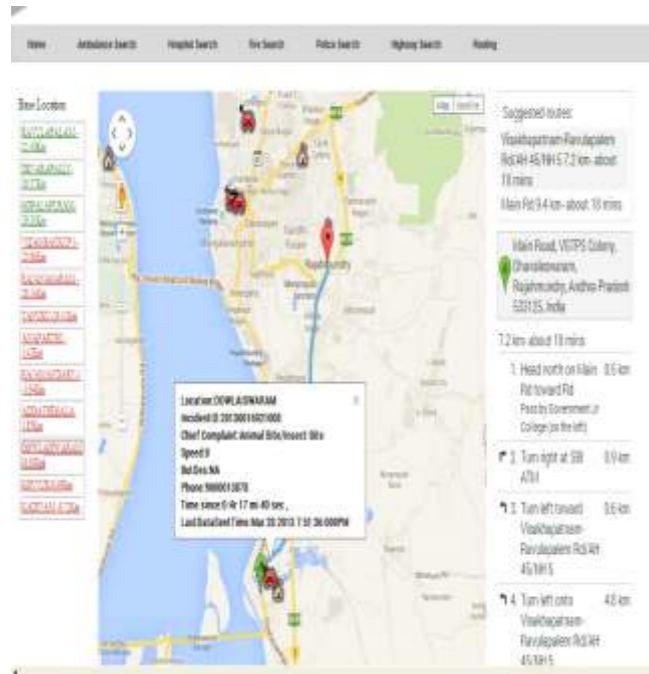

out to those in distress as Good Samaritans

This year, on March 13th we celebrated Good Samaritan Day with 51 Good Samaritans and 1 beneficiary. Shri. Gobinath, very popular - journalist, writer, TV anchor, orator and an actor, was the Chief Guest.

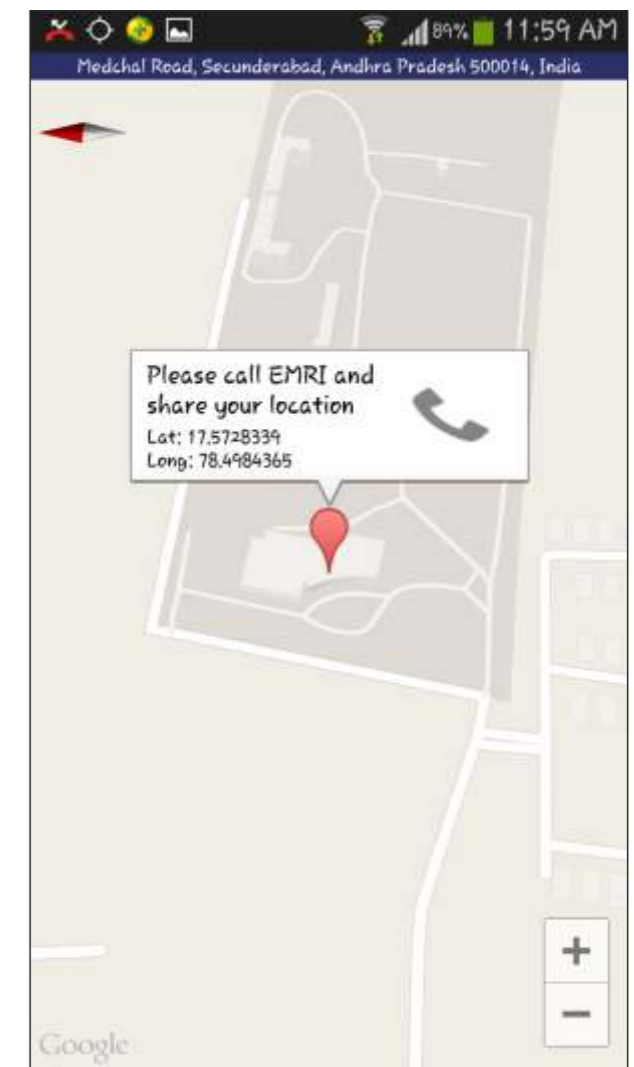

Mobile Applications

Emergency service providers across the world are leveraging mobile technologies to empower citizens with capabilities that help them deal with emergency situations in an efficient manner. GVK EMRI has devised a mobile application that automatically picks up the location of the caller and flashes the information to the centralized call center. This is expected to reduce the response time by a crucial three minutes.

"If the application is uploaded on a mobile, the call centre will pick up the location automatically. The call centre executive will not have to pose numerous questions to the distressed caller to verify the address. He will only need to confirm it and dispatch the nearest ambulance or police team," said Siddhartha Bhattacharya, chief operating officer, GVK EMRI.

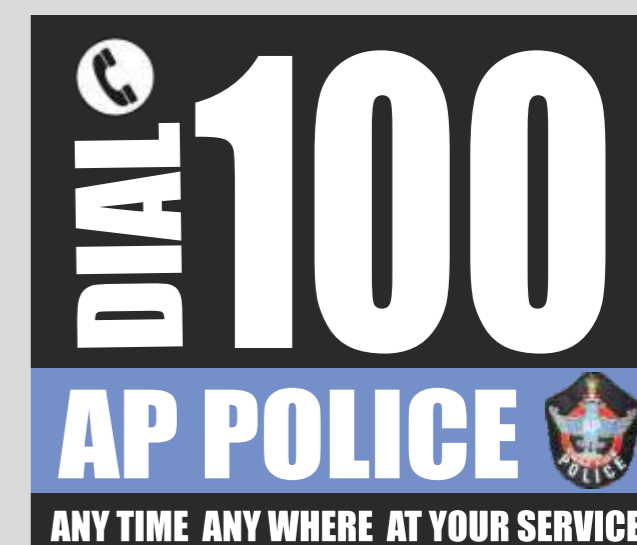

Mobile Screen Snapshots

Andhra Pradesh

STATE SNAPSHOT

Total Recall

Emergency Management and Research Institute (EMRI) was first set up in the state of Andhra Pradesh with 70 ambulances on 15th August, 2005. The objective of the organization was to deliver comprehensive, speedy, reliable and quality Emergency Care Services. It has revolutionized the concept of Emergency Care in India by establishing an Emergency Response System that coordinates every emergency through a single toll free number.

The number when called in an emergency ensures prompt communication and activation of a response that includes, assessment of the emergency, dispatch of the ambulances along with a well-trained Emergency Medical Technician to render quality pre-hospital care and transport of the patient to the appropriate health care facility.

The system has also put in place the strategic principle of "right patient to the right hospital in the shortest possible time", all built on a high end technology platform.

Total Number of Pregnancy cases reported to GVK EMRI and its share in total Medical Emergencies

Year	No. of Pregnancy Cases	% Share handled
2006	2528	2 %
2007	65009	17 %
2008	293095	20 %
2009	323495	21 %

Percentage Distribution of type of Medical Emergencies in pregnancy

Type of Emergency in Pregnancy	% Share
In labor pain	89.57 %
Abortions/Foetal loss	1.19 %
Excessive Bleeding in Pregnancy	1.41 %
Delivery in Ambulance	1.90 %
Eclampsia (Convulsions in Pregnancy)	0.45 %
Others (Not specified)	5.48 %
Total	109553

Project Dial 100

GVK EMRI has partnered with Police Department to help design, build and operate a modern State of the art unified Command and Control center for the state of Andhra Pradesh. It's an efficient integrated dial 100 center which can also be integrated with other Emergency Services like Medical, Fire and disaster related response services.

To hinder crime rate and ensure peace in the society, GVK EMRI's "Dial 100" has deployed high-end technology for analyzing calls, better information gathering, prompt response, follow up and faster information sharing across various levels.

Estimation results of GVK EMRI's contribution in reduction of MMR

Andhra Pradesh

STATE SNAPSHOT

Mother & Child Drop Back Facility

In Andhra Pradesh, GVK EMRI operates 4 dedicated drop-back ambulance to reduce infant & maternal mortality rate, few dedicated prototype vehicles are being inducted into service to shift newly born babies & mothers to their home in a healthy and sterile condition. These vehicles are completely equipped and insulated to avoid such hazardous gases, materials and shift infants in a safe and secured environment. Besides this, the vehicle also carries a counselor who educates mother on infant care and provide them with leaflets, handouts during the journey.

Neonatal Ambulance

GVK EMRI has launched Neonatal Ambulance in Andhra Pradesh to reduce the neonatal mortality rate. It is equipped with all the facilities to shift newborns to emergency care. The ambulance is provided with state-of-the-art equipments like a Transport Incubator, Ventilator, Pulse Oxymeter, Suction Apparatus, Transilluminator and advanced life-saving medications like surfactants, fresh frozen plasma etc. Besides it, a Neonatal Emergency Medical Technician (NEMT) will be present in the vehicle to attend to the infants.

AP 108 SNAP SHOT - INCEPTION TO MAR 2014

S.No.	Parameter	Since Inception to Mar'14
1	No. of Calls Attended Till Date	10.11 crores
2	Emergency Calls Attended	1.30 crores
3	Emergencies Attended	84.7 lakhs
4	Lives Saved	1.58 lakhs
5	Pregnancy Cases Attended	17.84 lakhs
6	Trauma Vehicular	11.29 lakhs
7	Cardio Vascular Diseases	2.73 lakhs
8	Acute Abdomen	8.75 lakhs
9	Respiratory	2.94 lakhs
10	Suicide & Poisoning	3.90 lakhs
11	No. of Ambulances Operational	802 (752 operational)

EMLC

GVK EMRI's EMLC (Emergency Medical Learning Centre) is the "Centre of Excellence" which provides education in Emergency medicine and management. EMLC adds value to emergency medical care through enhancement of knowledge and skills of health care professionals. Creating exceptional professionals across the country who are well trained to drive (Pilot), diagnose and impart skilled care (Emergency Medical Technicians), provide virtual hand holding (Emergency Response Centre Physicians) and manage emergency centers (APGDEC), support for training and providing care is the role provided by EMLC.

EMLC team is actively involved in organizing Advanced Post Graduate Diploma in Emergency Care in joint collaboration with Stanford School of Medicine, USA and many other training activities as coordinator of the International Training Centre for American Heart Association and International Trauma Life Support programmes.

Basic Training Programs

- Basic EMT- Preparatory course
- Refresher EMT - Training Program
- Pilot Preparatory course
- Refresher EMT - Training Program

Advanced Training Programs

- Basic Life Support (BLS)
- Advanced Cardiac Life Support (ACLS)
- Pediatric Advanced Life Support (PALS)
- Basic Life Support in Obstetrics (BLSO)
- Advanced Life Support in Obstetrics (ALSO)
- International Trauma Life Support – Basic (ITLS -Basic)
- International Trauma Life Support – Advanced (ITLS - Advanced)
- District Hospital Physician Training Program (DHPT)
- Pediatric District Hospital Physician Training Program (PDHPT)
- Skill Development Program (Training in Resuscitation Skills)
- Essential Emergency Care Skills (EECS)
- Orientation in Accident & Emergency Care
- First Responder Training Programs (FR)
- Community Based Emergency Response Training (CBERT)
- Training on Health Care Preparedness during Disasters
- Multi Casualty Incident Management Training (MCI)

The faculty of EMLC team is composed of distinguished and experienced professionals from various walks of Health Care. With many years of industry experience, and considered to be the best among the peers, they act as facilitators in the participant's learning process. Faculty members at GVK EMRI generate knowledge through cutting edge research in all functional areas of Emergency management that would benefit delivery of public and private health care Emergency systems in the society.

108 SAVIORS OF GUJARAT

BANASKANTHA DISTRICT

AT WORK, AT PLAY, LET SAFETY LEAD THE WAY

An eight year old Vasantji Pradhanji Thakor, a resident of Mahemadpur village and genuinely naughty by nature fell prey to a major mishap that evening. On 18th December soon after the school bell rang all the kids rushed towards the school gate. There was over pooling at the gate and just to avoid the same little Vasant tried to jump over the fence that almost cost him his life. While attempting to jump he somehow slipped and fell straight on the erected spear shaped fence rod. The sharp weapon shaped fence rod pierced through and through his throat almost missing the vital internal structures. Stranded by the incident the child stood helplessly crying with pain. The bystanders quickly called up '108 services' for immediate help.

Our ambulance at Vadgam location was assigned this case at 4:02 PM. EMT Hiral Nayak along with Pilot Mohmadsadik Shaikh immediately reached the scene. Expecting a major casualty all due preparations were prepared by EMT.

On arrival at scene there was a huge crowd around the victim. Little Vasant was in terrible pain. EMT stabilized the little boy and Pilot Mohmadsadik Shaikh ran to get the extrication tools. Very keenly considering the little boys safety first he cut the metal rod that had pierced his throat with a mere two fingers distance from the boy's neck using a hacksaw blade. Avoiding any further damage or injuries Vasant was then set free of the fence.

A rapid assessment was conducted to check for other major injuries and thus wound care was provided. Bleeding was stopped and the child was shifted to the ambulance for transporting to the hospital. Vasant was all conscious throughout till he reached the hospital.

On reaching the hospital the boy was handed over to the Casualty medical officer at Palanpur Civil Hospital. All his vital parameters recorded during the transit were conveyed during the handing over process. The hospital swung into action and surgically managed to remove the metal piece.

The little boy's life was saved by the efficient skills demonstrated by our '108' team work. Our efforts were appreciated widely by public, electronic media and print media too.

"Surely no matter how difficult was the case the zeal to save the victim's life paid off in the end."

108 SAVIORS OF KARNATAKA

HAVERI DISTRICT

VOLVO BUS MISHAP

On the wee Hours of Thursday 14th November 2013 our 108 team received calls saying that a Volvo bus had caught fire. The first to reach were EMT Shekavva and Pilot Parsuramappa Pujar. By the time they had reached, the bus was burning heavily.

The front door of the bus was broke open and the people struck inside were pulled out immediately. Simultaneously the 108 ambulances in and around that area were called upon. Totally five 108 ambulances came into swing. About 25 members of the bus had been taken by EMT Shekavva with the help of the Pilot to the nearest district hospital. All the people in the bus were first safely brought out of the burning Volvo bus and moved to district hospital after necessary first aid was given.

One patient was severely burnt and necessary pre hospital care was given and shifted to district hospital. Two of the patients were in a state of shock and were not in a position to talk at all. The EMT gave them fluids and saw that they came back to normalcy after a while. By then there was a lot of crowd which had gathered and found that the 108 ambulance services had done a great job. Everyone was full of praises and said that if this service was not available it would have lead to many casualties.

The 108 ambulances were the first to reach the spot before the police or the fire department could reach. It was a proud moment for GVK EMRI team because of which so many valuable lives were saved. The media appreciated the work done by the team.
